

OUR WORLDWIDE PROGRAM

# After School and Enrichment Classes

Spring, 2012

**Expose children to great works of art from around the world  
and provide students with the opportunity to problem solve, role play,  
question, discover, and create.**

Join us as we learn about a different masterpiece and artist each week through fun discussions, games and hands-on art projects. All discussions are inquiry-based and all projects are process-based.

**The following programs are appropriate for children in K-2nd grade:**

**CHILDREN IN ART:** Get to know other children your age who “live” in famous works of art. We will visit many places and time periods and learn about kids in the artwork of Francisco de Goya, Mary Cassatt, Pierre- Auguste Renoir, Vincent van Gogh and more!

**ONCE UPON A PICTURE:** In this one-hour class children hear stories, study illustrators’ styles, and create their own illustrations. This program provides children with another way to connect with books, increases children’s awareness of how art fits together with the words of a story, and familiarizes children with illustrators’ styles.

**The following program is appropriate for children  
in 3rd-5th grade:**

**SPORTS IN ART:** Broaden your understanding of sports to include those enjoyed in different time periods and cultures, including Ancient Egypt, Ancient Greece, England, Russia, Italy, France and, of course, the US. Artists include Edouard Manet, Thomas Eakins, Henri Rousseau, Jacob Lawrence, Edward Hopper and more!

*All classes will end with our special, kid-curated event!  
Students will create their own class gallery and guide  
their invited guests among our own  
museum-inspired masterpieces!*

*Creating
